Publishing Office: 84-86 Malahide Road, Coolock, Dublin 5, Republic of Ireland (Phone Dublin 475377; Telex 25670).

Subscription and Advertising Offices: Headington Hill Hall, Oxford OX3 0BW (Phone Oxford 64881; Telex 83177). Quarterly, 4 issues per volume.

Annual subscription rates (1981): For libraries, university departments, government laboratories, industrial and other multiple-reader institutions, U.S. \$105.00 per annum (including postage and insurance). Two year rate U.S. \$199.50. **Specialty reduced rates to individuals:** In the interests of maximizing the dissemination of the research results published in this important international journal we have established a two-tier price structure. Any individual whose institution takes out a library subscription may purchase a second or additional subscription for personal use at the much reduced rate of U.S. \$40.00. Subscription enquiries from customers in North America should be sent to: Pergamon Press Inc., Maxwell House, Fairview Park, Elmsford, NY 10523, U.S.A., and for the remainder of the world to: Pergamon Press Ltd., Headington Hill Hall, Oxford OX3 0BW, England.

Microform Subscriptions and Back Issues

Back issues of all previously published volumes are available in the regular editions and on microfilm and microfiche. Current subscriptions are available on microfiche simultaneously with the paper edition and on microfilm on completion of the annual index at the end of the subscription year.

Disasters

Medical Organization

NEW SUMMER 1980

Editors: J de BOER and Th W BAILLIE, *District Hospital, Warnsveld, Holland*

The efficient handling of casualties on the disaster site and in hospital is of paramount importance. As a result of their own experiences in such circumstances, the authors of **DISASTERS: MEDICAL ORGANIZATION** present a detailed guide to the procedures which must be followed after a major accident, and provide a municipal disaster plan which may be adapted to suit the circumstances.

Not only is there an inventory of the major organizations concerned with mass casualty treatment, but also an account of those charged with the transportation and distribution of large numbers of victims.

Easily understandable diagrams help to ensure effective deployment of staff and resources.

Most of the schemes have proved extremely valuable in actual disasters.

The basic principles of medical organization suggested can probably be applied to any country, but the details may vary depending on established structures.

The book concludes with a series of recommendations made from studies of the present situation.

This volume will be an essential addition to the libraries of hospitals, civil-defence organizations, departments of community medicine, social services departments and industrial medical officers.

Contents

Legislative Aspects of Disaster Medicine.
Community Medicine under Emergency Conditions.
A Municipal Disaster Plan.
Civil Defence Medical Services.
Crash Teams: their Purpose, Structure and Function.
Disaster Organization and the Railways.
Disaster Organization and Chemical Works.
Disaster Organization of an International Airport
Disaster Organization of Europoort Harbour.

The Role of the Ambulance in Disaster.
A Disaster Plan for a District Hospital.
Triage: the Evaluation of Disaster Casualties.
A Scheme of Surgical Treatment for Disaster Victims.
Anaesthesia and Analgesia in Disaster Situations.
Radiation Hazards.
Conclusions and Recommendations.
